SEPM can use the 2030 crack file

[SEPM\\_Crack.zip](#) (1.48 KB, Downloads: 180)

**Readme:**  
before install Replace SEPM\sep\_trial.slf with file from this directory to obtain the "trial until 01.07.2030"

foreigner full version of the installation package, the following is the connection address, you can use Thunder to download  
[Symantec\\_Endpoint\\_Protection\\_14.0.3929.1200.part1](#)  
[Symantec\\_Endpoint\\_Protection\\_14.0.3929.1200.part2](#)

**download [wget](#) from the official website**  
Symantec Endpoint Protection 12.1.6MP10+14.0.1MP2 English version of the three languages full version wget download  
Download and decompress the implementation of the corresponding bat file  
 [Symantec-Wget.rar](#) (468.66 KB, Downloads: 261)

The wget-Clients client  
wget-SEPM manager  
wget-Tools tool set includes the uninstall tool "CleanWipe"  
wget-Full full version (including all above)
